

# PERSONAL DEVELOPMENT PLAN

Name: POOJA H

BRANCH: ECE

GOAL: TO JOIN ISRO/DRDO

## Career Objective

To build a successful career as a **Scientist/Engineer** in ISRO or DRDO, where I can apply my technical knowledge, creativity, and problem-solving skills to contribute towards India's advancement in **space research and defense technology**. My aim is to work on innovative projects that strengthen the nation's scientific and technological capabilities.

## Short-Term Goals (1-2 Years)

- Complete my **B.E/B.Tech** degree with excellent academic performance.
- Strengthen core technical subjects like **Electronics, Communication Systems, and Control Systems**.
- Prepare for **GATE, ISRO, and DRDO recruitment exams**.
- Gain hands-on experience through **mini-projects, internships, and technical workshops**.
- Develop **communication, teamwork, and leadership** skills.

## Middle-Term Goals (3–5 Years)

- Clear **GATE** and/or get shortlisted for **ISRO/DRDO Scientist exams**.
- Work on **research projects** or **internships** in relevant fields like embedded systems, robotics, or aerospace.
- Publish **technical papers** or participate in **innovation challenges and hackathons**.
- Learn **advanced programming and simulation tools** such as MATLAB, Python, and Embedded C.
- Build a strong **technical portfolio** showcasing innovation and analytical ability.

## Long-Term Goals (5–10 Years)

- Secure a position as a **Scientist/Engineer** at **ISRO or DRDO**.

- Contribute to major **national missions** involving space research, satellite development, or defence systems.
- Pursue **higher studies (MTech/Ph.D.)** in Aerospace, Avionics, or Defence Technology to enhance expertise.
- Lead research teams and projects that promote India's **technological self-reliance**.
- Become a **recognized expert** contributing to scientific publications and national development.

## Strength

- (1) Multiple brands and items are sold.
- (2) Low cost and offers in festive season.
